Summary

Web Developer with a completed certificate from Harper College and hands-on experience building responsive applications using JavaScript, React.js, HTML/CSS, and Node.js. Currently pursuing an Associate degree in Cybersecurity with knowledge of networking fundamentals and Python. Eager to apply both development and security skills in a practical environment and continue growing as a full-stack or cybersecurity professional.

Technical Skills

Languages: JavaScript, HTML, CSS, Swift, C++, C#, Python

Frameworks/Libraries: React.js, Node.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, WordPress, Figma, Adobe Illustrator

Cybersecurity: Networking fundamentals, Python for Cybersecurity, Windows & Linux server administration

Certifications: CompTIA Network+, CompTIA Security+

Projects

Japan Sushi (React.js)

Developed a responsive sushi ordering app using React with dynamic cart functionality, filter options, and modern UI components. [Japan Sushi](#)

Expense Tracker (JavaScript)

Built a single-page application to track and manage daily expenses. Implemented real-time DOM updates and local storage. [Expense-tracker](#)

Todo List App (React.js)

Created a task manager with filtering, CRUD functionality, and mobile responsiveness. [Todo-list](#)

Pig Game (JavaScript)

Developed an interactive browser game using vanilla JavaScript and DOM manipulation. [Pig-Game](#)

Papa-Pizza (JavaScript, HTML/CSS, Node.js)

Built a pizza ordering web application with a dynamic front-end and Node.js-powered backend. Features include interactive menus, cart functionality, and responsive layout. [Papa-Pizza](#)

Simple-Bank (JavaScript, HTML/CSS)

Developed a simple banking web application with features like balance display, transaction history, and deposit/withdraw functionality using vanilla JavaScript and CSS styling. [Simple-Bank](#)

Education

Harper College – Palatine, IL

Certificate in Web Development, Completed 12/2024
Associate Degree in Cybersecurity, Expected 01/2027

Donetsk National Technical University – Donetsk, Ukraine

Bachelor in Business Information, 09/2015 – 07/2020

Computer Academy "Step" – Donetsk, Ukraine

Certificate in Software Development, 09/2016 – 05/2018

- Learned C, C++, C#, and WinForms
- Completed problem-solving tasks using Abramyan's programming exercises

Experience

Insight Enterprises — Service Technician

08/2024 – Present

- Configure and prepare computers for various client companies according to specific technical requirements.
- Perform Autopilot setup, provisioning, imaging, blueprint configuration, and quality assurance (QA) to ensure system readiness.
- Install BIOS and operating system updates, as well as hardware components such as RAM, CPUs, USB modules, and adapters.

-
- Record serial numbers and detailed device information in the company's database after each deployment.
 - Contribute to efficient device lifecycle management by ensuring all systems are fully functional and compliant before delivery.

Ozark — IT Technician

06/2021 – 07/2024

- Installed and configured surveillance camera systems across multiple store locations, ensuring reliable network connectivity and system stability
- Set up and maintained routers, printers, and other network devices, integrating them into the company's shared infrastructure
- Replaced and repaired computer hardware components including monitors, CPUs, keyboards, and power supplies
- Configured corporate email accounts and provided on-site technical support for employees.
- Collaborated with store managers to troubleshoot hardware and network issues, minimizing system downtime

Freelance Web Developer

08/2020 – 03/2021

- Created front-end websites using HTML, CSS, and JavaScript
- Completed student lab assignments and small applications in C, C++, and C# using WinForms

RoboClick – Donetsk, Ukraine

Intern, 07/2017 – 08/2018

- Contributed to discussions for developing an online ordering system
- Assisted in back-end algorithm development using C# and front-end scripting with JavaScript
